ICPSR Summer Course  
Ann Arbor, MI

Table 1: EAD946B Guzman Course Evaluations - Part I

| Timestamp      | The Course Assistant was prepared for labs. | The Course Assistant presented material clearly. | The Course Assistant improved my understanding of how to apply econometric techniques. | The Course Assistant improved my ability to use Stata. |
|----------------|---------------------------------------------|--------------------------------------------------|----------------------------------------------------------------------------------------|--------------------------------------------------------|
| 12/11/23 10:43 | 4 = Strongly agree                          | 4 = Strongly agree                               | 4 = Strongly agree                                                                     | 4 = Strongly agree                                     |
| 12/11/23 12:29 | 4 = Strongly agree                          | 4 = Strongly agree                               | 4 = Strongly agree                                                                     | 2 = Disagree                                           |
| 12/12/23 8:08  | 4 = Strongly agree                          | 4 = Strongly agree                               | 4 = Strongly agree                                                                     | 4 = Strongly agree                                     |

Table 2: EAD946B Guzman Course Evaluations, Part II

| Timestamp      | The Course Assistant was helpful during labs. | The labs were engaging. | After the Course Assistant's labs, I feel more prepared to use econometric techniques in my own research. | The Course Assistant's office hours improved my understanding of course material. |
|----------------|-----------------------------------------------|-------------------------|-----------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
| 12/11/23 10:43 | 4 = Strongly agree                            | 4 = Strongly agree      | 4 = Strongly agree                                                                                        | 4 = Strongly agree                                                                |
| 12/11/23 12:29 | 4 = Strongly agree                            | 3 = Agree               | 2 = Disagree                                                                                              | 3 = Agree                                                                         |
| 12/12/23 8:08  | 4 = Strongly agree                            | 4 = Strongly agree      | 4 = Strongly agree                                                                                        | 4 = Strongly agree                                                                |

Table 3: EAD946B Guzman Course Evaluations, Part III

| Timestamp      | I had an opportunity to get all of my questions answered during the Course Assistant's office hours. | For my level of understanding, the Course Assistant's explanations of course material were... | Please provide any additional comments or feedback about the Course Assistant, Stata labs, or office hours. (This is extremely helpful to the Course Assistant in understanding what went well and what can be improved upon!)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|----------------|------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 12/11/23 10:43 | 4 = Strongly agree                                                                                   | just right.                                                                                   | Matthew was a fantastic TA who improved my understanding of econometrics. He was always available to solve small queries a few minutes after class and also prepared for the labs in intricate detail.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/11/23 12:29 | 3 = Agree                                                                                            | somewhat too complicated.                                                                     | Overall, a great use of time Ed Policy is lucky to have Matthew and his great skills in our department. Thank you, Matthew. Outside of Matthew's skill set, it might be useful to utilize Stata labs to be held during class time. While the Zoom options provided the space for students to engage throughout the week, the schedule conflict prevent me from attending most STATA Labs. Because of that, a bi-weekly approach in class might perhaps provide students with the opportunity to transfer skills over to other levels. In addition to the in-person schedule, it also might be a great idea to provide STATA labs two weeks prior to each Problem Set due dates. The due dates, two weeks apart conflict with the time of the STATA Lab on the week of the assignment, with the various range of students' STATA or econometric ability.... it might perhaps be better to be completed at least two weeks out in advance. |
| 12/12/23 8:08  | 4 = Strongly agree                                                                                   | just right.                                                                                   | Very supportive, very kind.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
